## SPECIAL EDUCATION

### Serving Students with Disabilities

Academic success—that's our focus! Curriculum and instruction are modified as necessary to level our students' academic playing field. Students and teachers work together to accomplish several goals including graduation, transition to life after graduation, and school and community citizenship.

### Desk Audit Results

Special Education is a much monitored, highly regulated program full of state and federal guidelines and a multitude of timelines. Our last Desk Audit indicates that the Wirt County Special Education Program meets or exceeds state targets in several areas including Drop-out Rate, State Testing Participation, and Secondary Transition. The audit revealed that we need to attend to and improve our Graduation Rate, and performance in Reading and Mathematics.
